Show a Python greeting and demonstrate paragraph alignment.

Left aligned introduction

python

```python
def greet(name):
    return f"Hello, {name}!"

print(greet("Ada"))
```

Centered caption

Right aligned note

The paragraph below the code uses justified alignment. Its words spread across the available line width while the last line ends naturally inside the reply.

1. **Bold text**: This is an important message.
2. *Italic text*: This sentence is emphasized.
3. ***Bold + Italic***: This is very important!
4. Underlined text: This text is underlined.
5. Strikethrough: ~~This text has been deleted.~~
6. Highlighted text: This text is highlighted.
7. Colored text: This text is green.
